Hello, I would like to take just a minute of your time. I'm a college student and I can honestly say there is a great chance that uber has saved my life, and countless others. Uber provides cost affordable, safe and fast rides for often intoxicated people who would possible otherwise feel the need to drive. Don't take this away from the people of South Carolina. If you do however take this away, I can assure you it will be at the costs of lives. I pray you make the right decision. Thank you.

Please don't take this awesome company away. I have had nothing but great experiences with them. Since I have been introduced to their simple, inexpensive and easy method of transportation, I have not risked drinking and driving. Cabs are terrible here. They take for ever to get to you most of the time and they are too expensive. They're stinky too. Uber is the way to travel, get with the times and look up the definition of FREE ENTERPRISE please.

Uber ROCKS,

**Subject:** Uber is so much better!

Please reconsider your stance on Uber! They make taking a taxi so much safer (no cash required by drivers or customers), faster, more efficient, and pleasant! South Carolina would be making a huge mistake by not letting Uber continue. The old taxi system was horrible and shady to say the least. Uber does background checks and safety inspections, plus the cars are 2006 or newer, clean, and well maintained!

Thank you,
